EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

February 12, 2018

THE DIRECTOR

The President
The White House
Washington, D.C. 20500

Dear Mr. President:

Enclosed please find the *OMB Report to the Congress on the Joint Committee Reductions for Fiscal Year 2019*. The report has been prepared consistent with the requirements of the Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA). This report provides the Office of Management and Budget's (OMB) calculations of the amounts by which the discretionary spending limits ("caps") specified in section 251(c) of BBEDCA are required to be reduced, calculations of the amount and percentages by which direct spending is required to be reduced, and a listing of the reductions required for each non-exempt budget account with direct spending. The report is required notwithstanding the Administration's FY 2019 Budget proposal to replace the reductions to the defense discretionary caps set forth in BBEDCA.

The Bipartisan Budget Act of 2018 (BBA; H.R. 1892) was signed into law on February 9, 2018. The legislation sets new discretionary spending limits for 2018 and 2019 and directs that the reductions to the discretionary spending limits described in this report not be applied for 2019. The BBA does not affect the calculation of the sequestration of direct spending. BBEDCA requires that this report be released on the same day as the President's Budget. As a result of this timing constraint, the report does not incorporate the requirements of H.R. 1892. Consistent with H.R. 1892, the revised discretionary spending limits for 2018 and 2019 will be reflected in OMB's final sequestration report for 2018 that will be issued after final 2018 appropriations are completed.

Sincerely,

Mick Mulvaney
Director

Enclosure

Identical Letter Sent to The Honorable Michael R. Pence
and The Honorable Paul D. Ryan

NOTE: The Bipartisan Budget Act of 2018 (BBA; H.R. 1892) was signed into law on February 9, 2018. The legislation sets new discretionary spending limits for 2018 and 2019 and directs that the reductions to the discretionary spending limits described in the following report not be applied for 2019. The BBA does not affect the calculation of the sequestration of direct spending. The underlying statute also requires that this report be released on the same day as the President’s Budget. As a result of this timing constraint, the report does not incorporate the requirements of H.R. 1892. Consistent with H.R. 1892, the revised discretionary spending limits for 2018 and 2019 will be reflected in OMB’s final sequestration report for 2018 that will be issued after final 2018 appropriations are completed.

OMB REPORT TO THE CONGRESS ON THE JOINT COMMITTEE REDUCTIONS FOR FISCAL YEAR 2019

The Balanced Budget and Emergency Deficit Control Act (BBEDCA) requires the Office of Management and Budget (OMB) to calculate reductions of fiscal year (FY) 2019 budgetary resources and provide them to the Congress with the transmittal of the Budget. This report provides OMB’s calculations of the reductions to the discretionary spending limits (“caps”) specified in section 251(c) of BBEDCA for FY 2019 and a listing of the FY 2019 reductions required through sequestration for each non-exempt budget account with direct spending.

OMB calculates that the Joint Committee reductions will lower the discretionary cap for the revised security (defense) category by \$54 billion and for the revised non-security (nondefense) category by \$36 billion. Additionally, the Joint Committee reductions require sequestration reductions to non-exempt direct spending of 2.0 percent to Medicare, 6.2 percent to other non-exempt nondefense mandatory programs, and 8.7 percent to non-exempt defense mandatory programs.

Under section 251A of BBEDCA, the failure of the Joint Select Committee on Deficit Reduction to propose, and the Congress to enact, legislation to reduce the deficit by \$1.2 trillion trigger automatic reductions in FY 2019 through adjustments in the discretionary spending limits and sequestration of direct spending. As shown in Table 1, the total amount of deficit reduction required is specified by formula in section 251A(1), starting with the total reduction of \$1.2 trillion required for FY 2013 through FY 2021, deducting a specified 18 percent for debt service savings, and then dividing the result by nine to calculate the annual reduction of \$109 billion for each year from FY 2013 to FY 2021.¹ Section 251A(2) requires the annual reduction to be split evenly between budget accounts in function 050 (defense function) and in all other functions (nondefense function), so that each function group will be reduced by \$54.667 billion.

¹ Reductions have already been ordered to take effect for 2013 through 2018, with some modifications as provided for in the American Taxpayer Relief Act of 2012 (Public Law 112-40), the Bipartisan Budget Act (BBA) of 2013 (Public Law 113-67), and the BBA of 2015 (Public Law 114-74). The mandatory sequestration provisions were extended beyond 2021 by the BBA of 2013, which extended sequestration through 2023; the Military Retired Pay Restoration Act (Public Law 113-82), which extended sequestration through 2024; and the BBA of 2015, which extended mandatory sequestration through 2025. Sequestration in these four years after 2021 is to be applied using the same percentage reductions for defense and non-defense as calculated for 2021.

Table 1. CALCULATION OF TOTAL ANNUAL REDUCTION BY FUNCTION
(Dollars in billions)

Joint Committee required savings	1,200.000
Deduct debt service savings (18%)	-216.000
Net programmatic reductions	984.000
Divide by 9 to calculate annual reduction	109.333
Split 50/50 between defense and nondefense functions	54.667

Base for Allocating Reductions and Method of Reduction

The annual reduction is further allocated between discretionary and direct spending within each of the function groups. Once the reductions are allocated, separate methods are used to implement the reductions for discretionary appropriations and direct spending.

Discretionary Reductions. The base for allocating reductions to discretionary appropriations is the discretionary spending limit for FY 2019 set forth in section 251(c). The reductions are implemented by lowering the discretionary spending limits for the revised security (defense) category and the revised nonsecurity (nondefense) category.

Direct Spending Reductions. Pursuant to paragraphs (3) and (4) of section 251A, and consistent with section 6 of the Statutory Pay-As-You-Go Act of 2010, the base for allocating reductions to budget accounts with direct spending is the sum of the direct spending outlays in the budget year and the subsequent year that would result from sequestrable budgetary resources in FY 2019.

Estimates of sequestrable budgetary resources and outlays for budget accounts with direct spending are equal to the current law baseline amounts contained in the President's FY 2019 Budget, and include direct spending unobligated balances in the defense function² and Federal administrative expenses that would otherwise be exempt.³

The majority of estimated direct spending unobligated balances in the defense function are in Department of Defense accounts. The Department of Defense estimates of unobligated balances as of October 1, 2018, are consistent with the estimates in the FY 2019 Budget.

For purposes of applying the Joint Committee sequestration to direct spending under BBEDCA, "administrative expenses" for typical Government programs are defined as the object classes for personnel compensation, travel, transportation, communication, equipment, supplies, materials, and other services. For Government programs engaging in commercial, business-like activities, administrative expenses constitute overhead costs that are necessary to run a business, and not expenses that are directly tied to the production and delivery of goods or services.

The reductions to direct spending are implemented through sequestration of non-exempt budgetary resources. Pursuant to sections 251A(6), 255, and 256, most direct spending is exempt from sequestration or, in the case of the Medicare program and certain other health programs, is subject to a 2 percent limit on sequestration.

Defense Function Reduction

Steps 1 and 2 on Table 2 show the calculation of the reduction required for discretionary appropriations and direct spending within the defense function. Steps 3 and 4 on Table 2 reflect the implementation of the reductions calculated in steps 1 and 2 through an adjustment to the discretionary spending limit for the defense category and a sequestration of direct spending in the defense function.

² Defense function unobligated balances are not exempt from sequestration pursuant to section 255(e) of BBEDCA.

³ Under section 256(h) of BBEDCA, Federal administrative expenses are subject to sequestration pursuant to an order issued under section 254 "without regard to any exemption, exception, limitation, or special rule that is otherwise applicable."

Table 2. DEFENSE FUNCTION REDUCTION

(Dollars in billions)

		Discretionary	Direct Spending	Total
Calculation of Reduction:				
Step 1.	Base for allocating reduction	616.000	9.267	625.267
	Percentage allocation of reductions	98.52%	1.48%	
Step 2.	Allocation of total reduction	53.858	0.809	54.667
Implementation of Reduction:				
Step 3.	Reduction in defense cap:			
	Appropriations reduction required	-53.858		
	Adjusted defense cap	562.142		
Step 4.	Sequestration percentages calculation:			
	Reduction amount		0.809	
	Sequestrable base		9.267	
	Sequestration percentage		8.7%	

The calculation of the reduction involves the following steps:

Step 1. Pursuant to section 251A(3), the total reduction of \$54.667 billion is allocated proportionately between discretionary appropriations and direct spending. The total base is the sum of the FY 2019 discretionary spending limit for the defense category (\$616 billion) and OMB’s baseline estimates of sequestrable direct spending outlays (\$9.267 billion) in the defense function in FY 2019 and FY 2020 from direct spending sequestrable resources in FY 2019. Discretionary appropriations comprise nearly 99 percent of the total base in the defense function.

Step 2. Total defense function spending must be reduced by \$54.667 billion. As required by section 251A(3)(A), allocating the reduction based on the ratio of the discretionary spending limit to the total base (the sum of the defense discretionary spending limit and sequestrable direct spending) yields a \$53.858 billion reduction required to be made to discretionary appropriations. Under section 251A(3)(B), the remaining \$0.809 billion is the reduction required for budget accounts with direct spending.

The implementation of the reductions involves the following steps:

Step 3. As required by section 251A(5)(B), the discretionary spending limit for the defense category is lowered by the amount calculated in step 2, which results in a discretionary defense cap for FY 2019 of \$562.142 billion.

Step 4. As required by section 251A(6), the percentage reduction for non-exempt direct spending is calculated by dividing the direct spending reduction amount (\$0.809 billion) by the sequestrable budgetary resources (\$9.267 billion) for budget accounts with direct spending, which yields a 8.7 percent sequestration for budget accounts with non-exempt direct spending.

Nondefense Function Reduction

Steps 1 and 2 on Table 3 show the calculation of the reduction required for discretionary appropriations and direct spending within all other functions besides 050 (nondefense function). The calculation is more complicated than the calculation for the defense function due to a two percent limit in the reduction of Medicare non-administrative spending and a special rule for applying the reduction to student loans. Steps 3 and 4 on Table 3 reflect the

implementation of the reductions calculated in steps 1 and 2 through an adjustment to the discretionary spending limit for the nondefense category and a sequestration of direct spending in the nondefense function.

The calculation of the reduction involves the following steps:

Step 1. Total spending in the nondefense function must be reduced by \$54.667 billion. The portion of Medicare subject to the two percent limit is estimated to have combined FY 2019 and FY 2020 outlays of \$697.911 billion from FY 2019 budgetary resources, so a two percentage point reduction would reduce outlays by \$13.958 billion, leaving a reduction of \$40.709 billion to be taken from discretionary appropriations and other direct spending in the nondefense function.

Table 3. NONDEFENSE FUNCTION REDUCTION

(Dollars in billions)

	Discretionary	Direct Spending	Total
Calculation of Reduction:			
Step 1. Total reduction, excluding savings from Medicare 2% limit:			
Medicare base subject to 2% limit		697.911	
Total nondefense function reduction			54.667
Reduce Medicare by 2%			<u>-13.958</u>
Non-Medicare reduction amounts			40.709
Step 2. Allocate non-Medicare reduction:			
Total base for allocating reduction	566.000	778.113	1,344.113
Exclude Medicare (portion subject to 2% limit)		<u>-697.911</u>	<u>-697.911</u>
Non-Medicare base	566.000	80.202	646.202
Percentage allocation of non-Medicare base	87.59%	12.41%	
Non-Medicare reduction amounts	35.657	5.052	40.709
Percentage allocation of non-Medicare reduction	87.59%	12.41%	
Implementation of Reduction:			
Step 3. Reduction in nondefense cap:			
Appropriations reduction required	-35.657		
Adjusted nondefense cap	530.343		
Step 4. Sequestration percentages calculation:			
Remaining reduction amounts		5.052	
Savings from uniform percentage reduction:			
From 6.2% increase in student loan fee		0.062	
From remaining sequestrable budget accounts		4.990	
Sequestrable base for uniform percentage reduction		80.202	
Sequestration percentage		6.20%	
Summary of Reductions:			
2% sequestration of Medicare		13.958	
Student loan fee increase		0.062	
Uniform percentage reduction		<u>4.990</u>	
Total reduction	35.657	19.010	54.667

Step 2. Pursuant to section 251A(4), the remaining reduction of \$40.709 billion is allocated proportionately between discretionary appropriations and other direct spending in the nondefense function. The base (\$646.202 billion) is the sum of the FY 2019 discretionary spending limit for the nondefense category (\$566.000 billion) and the remaining sequestrable direct spending base (\$80.202 billion). The latter amount equals OMB's 2019 Budget baseline estimates of total sequestrable direct spending outlays in the nondefense function in FY 2019 and FY 2020 from direct spending sequestrable resources in FY 2019 (\$778.113 billion) minus the portion of Medicare subject to the two percent limit (\$697.911 billion). Discretionary appropriations account for 87.59 percent of the remaining base in the nondefense function, and direct spending accounts for 12.41 percent.

As required by section 251A(4), applying these percentage allocations to the remaining required reduction for programs in the nondefense function yields the reduction for discretionary appropriations (\$35.657 billion) and for remaining direct spending (\$5.052 billion).⁴

The implementation of the reductions involves the following steps:

Step 3. As required by section 251A(5)(B), the discretionary spending limit for the nondefense category is lowered by the amount calculated in step 2, which results in a discretionary nondefense cap for FY 2019 of \$530.343 billion.

Step 4. The remaining reduction (\$5.052 billion) to direct spending is applied as a uniform percentage reduction to the remaining budget accounts with sequestrable direct spending and by increasing student loan fees by the same uniform percentage, as specified in sections 251A(6) and 256(b). Each percentage point increase in the sequestration rate is estimated to result in \$0.010 billion of savings in the direct student loan program. Solving simultaneously for the percentage that would achieve the remaining reduction when applied to both the remaining sequestrable direct spending (\$80.202 billion) and to student loan fees yields a 6.2 percent reduction. This percentage reduction yields outlay savings of \$0.062 billion in the direct student loan program and \$4.990 billion from the remaining budget accounts with non-exempt direct spending.

Reductions to Discretionary Spending Limits

The reductions to the discretionary spending limits in both the defense and nondefense categories calculated in this report pursuant to section 251A of BBEDCA are reflected as adjustments to such limits in the Discretionary Sequestration Preview Report, provided pursuant to section 254 of BBEDCA.

Direct Spending Reductions by Budget Account (Appendix)

The Appendix of this report sets forth the percentage and dollar amount of the reductions required for each budget account with sequestrable direct spending. Specifically, the Appendix shows the sequestrable budgetary resources in each budget account with direct spending, the percentage reduction required for each sequestrable budgetary resource, and the resulting reduction. For illustrative purposes only, the Appendix shows the application of the same percentage reduction to each type of budgetary resource within a budget account with direct spending. There is no requirement that sequestration be applied equally to each type of budgetary resource within a budget account. Section 256(k)(2) of BBEDCA requires that sequestration be applied equally at the program, project, and activity level.

⁴ The sequestration reduction for the mandatory portions of certain health programs is limited to two percent pursuant to sections 251A(6) and 256(e)(2). The portion of these programs subject to the two percent limit is estimated to have no FY 2019 budgetary resources and is therefore not shown in this calculation.

Direct Spending Sequestrable Budgetary Resources and Reductions by Budget Account -- FY 2019

(Amounts in millions)

Agency / Bureau / Account / Function / BEA Category / Budgetary Resource	Sequestrable BA Amount	Sequester Percentage	Sequester Amount
--	---------------------------	-------------------------	---------------------

Amounts may not sum to total due to rounding.

Mandatory Federal administrative expenses of otherwise exempt accounts are sequestrable pursuant to section 251A(8) and section 256(h) of BBEDCA.

Unobligated balances of budget authority carried over from prior fiscal years in defense function 050 accounts are sequestrable.

For intragovernmental payments, sequestration is applied to the paying account. The funds are generally exempt in the receiving account in accordance with section 255(g)(1)(A) of BBEDCA so that the same dollars are not sequestered twice.
