

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

January 21, 2021

Statement from Acting OMB Director Robert Fairweather

**Budgetary Impact Analysis for Executive Order Entitled
“A Sustainable Public Health Supply Chain”**

This executive order directs immediate actions to secure supplies necessary for responding to the COVID-19 pandemic, so that those supplies are available to the Federal Government and State, local, Tribal, and territorial authorities, as well as to health care workers, health systems, and patients. Implementing this executive order would have de minimis impact on costs and revenues to the Federal Government. The benefits of this executive order include securing supplies that are vital to the Nation’s ability to reopen its schools and economy as soon and safely as possible. Implementing this executive order would have de minimis impact on mandatory and discretionary obligations and outlays, as well as on revenues to the Federal Government, in the 5-year fiscal period beginning in fiscal year 2021. The agencies anticipated to be impacted by this executive order include the Departments of State, Defense, Health and Human Services, Homeland Security, and other appropriate executive departments and agencies.
