OMB Report to Congress on United States Contributions to the United Nations and Affiliated International Organizations for Fiscal Year 2019

The following report on U.S. Contributions to the United Nations (UN) is prepared pursuant to section 312 of the Department of State Authorities Act, Fiscal Year 2017 (P.L. 114-323) and Section 4(b) of the United Nations Participation Act (22 U.S.C. § 287b(b)). Section 312 requires the Director of the Office of Management and Budget (OMB) to submit to the Congress a report on all assessed and voluntary contributions with a value greater than \$100,000, including in-kind, of the U.S. Government to the UN and its affiliated agencies and related bodies during the previous fiscal year. For each U.S. Government department or agency, the report provides specific information as required by section 312, including: the responsible U.S. Government agency, the recipient UN entity, the amount obligated, a description of the contribution or other support, whether the contribution or other support was assessed or voluntary, and the purpose of the contribution or other support. Section 4(b) of the United Nations Participation Act further requires the Secretary of State to submit an annual report to Congress on the extent and disposition of all financial contributions (any amount) made by the United States during the preceding year to international organizations (including the U.N. and its affiliated agencies) in which the United States participates as a member.

Due to the significant overlap in these two reporting requirements, the FY 2019 report addresses both by covering contributions of any amount to international organizations and multilateral entities (including the U.N. and its affiliated agencies) for fiscal year 2019. Note, the grand total of contributions under section 312 does not match that of contributions tabulated for section 4(b) since the former is limited to contributions to U.N. and affiliated agencies and the latter covers the entirety of contributions to all international organizations. The report includes funding in support of certain multilateral entities that are not generally considered international organizations. The format of this report is similar to previous OMB reports on contributions.

The Department of State collaborated with OMB on the production of the report and has also submitted it to Congress and posted it on its web site at https://www.state.gov/u-s-contributions-to-international-organizations-2019/, consistent with United Nations Participation Act. The information included in the report was provided to OMB by the Executive Branch agencies identified in the report. Each participating agency was responsible for the completeness and accuracy of the information provided. Not all Executive Branch agencies provided information for inclusion in the report.

The amounts of U.S. government funding included in this report are amounts of funding obligated in fiscal year 2019. The amounts of total funding to recipient entities from all sources in the report is generally by calendar year. Based on the latest information provided by the Department of State and other agencies, the report lists the approximate percentage of U.S. contributions to each entity compared with all the contributions to that entity in the relevant fiscal year. Most entities were not able to report based on the U.S. fiscal year (October 1- September 30), as they operate on a calendar-year basis (January 1-December 31). That information was obtained from public reporting made by the United Nations System Chief Executives Board for Coordination (CEB), where applicable, and from other sources published by the recipient entities, such as audited financial statements and annual reports. Information for some entities was not available when the Department and OMB produced this report.

The information in the following report includes financial and in-kind support, including assessed contributions, voluntary contributions, grants, and other assistance to international organizations. This report does not include information on contracts for goods or services provided to the U.S. Government,

the costs to the U.S. Government of the salaries of American employees detailed to the secretariats of international organizations, or the costs of reimbursing international organizations for taxes that American citizens and legal permanent residents employed by the organizations pay to U.S. federal, state, and local governments. Contributions to international financial institutions such as the International Bank for Reconstruction and Development are not included in this report, but are the subject of a separate report by the National Advisory Council on International Monetary and Financial Policies.

Contributions by Recipient	FY 2019 USG Obligations (U.S. dollars)	Total from All Sources (U.S. dollars)	USG Obligations as Percentage of Total	2019 U.S. Assessment Rate

Notes:

* Amount for the UN Secretariat includes subordinate entities such as UNCTAD, UNFF, UNITAD, UN SRSG-SVC, UNISDR, UNRCPD, and UNRC. UN Secretariat offices receiving over 100 million, such as OCHA, OHCHR, UNODC, UNHCR, and UNOPS, are listed separately.

** Amounts of funding from all sources for some entities were not publicly available as of July 31, 2020. Available all-sources amounts are generally for calendar year 2019. All-sources amounts for UN peacekeeping missions are for the July 1, 2018, through June 30, 2019, UN peacekeeping financial year.

Contributions Summary by U.S. Agency	FY 2019 Obligations (U.S. dollars)
Environmental Protection Agency	11,386,000
