As a side project I study government design practices and want to file a records request for interaction OMB may have had around the creation of the new Space Force logo. I do this as I realize OMB is a bit of a cog in machinery that touches many facets of government. I request all email and text message communications detailing the discussion, planning, and finalizing of the Space Force logo announced on Jan 24, 2020. This should include all visual files (PDF, PPT, etc) that were being vetted at different points in the graphic design process, plus any related intake documents that informed these designs. This should also include the period since August 2018 that included public voting on six options ahead of this final version that was just announced. This will help understand the process of going from this voting system up until final delivery. Thanks so much for you help, I look forward to seeing this to learn more about how this process typically works!
