

PRESIDENT JOE BIDEN

INVESTING IN AMERICA

President Biden's Investing in America Agenda is Delivering in

MASSACHUSETTS

Under the Biden-Harris Administration, Massachusetts has added over **301,000 new jobs** and unleashed nearly **\$7.9 billion** in private sector investment in the state. The state has seen a significant decrease in unemployment, and millions of people in Massachusetts stand to benefit from the President's actions to lower health care, energy, and education costs.

As of December 2024

311 thousand individuals in Massachusetts signed up for health insurance through the Affordable Care Act Marketplaces during the Open Enrollment Period for 2024.

\$2.3 billion in student debt cancellation has been approved for **43,650** people in Massachusetts under the Biden-Harris Administration.

1.4 million seniors and other Medicare beneficiaries will save money on prescription drug costs.

\$7.9 billion in private sector manufacturing and clean energy investments under the Biden-Harris Administration.

4.0% unemployment rate with **301 thousand** new jobs created under the Biden Administration.

\$12.2 billion in public investments in clean energy, infrastructure, and manufacturing under the Biden-Harris Administration.

292.8 thousand applications to start new businesses under the Biden Administration.

The Biden-Harris Administration's Investing in America agenda has unleashed \$7.9 billion in private sector manufacturing and clean energy investments, including:

- ★ Moderna is investing **\$322 million** dollars in a new biomanufacturing plant in **Marlborough**, which will create up to 250 good-paying jobs.
- ★ HYM Investment Group began construction on a **\$280 million** biomanufacturing hub, which will offer leasable R&D space for biomedical and pharmaceutical companies.
- ★ Continuous Pharmaceuticals has invested **\$125 million** in a new manufacturing facility in **Woburn**, which will produce pharmaceutical ingredients and finished drug products.

The Biden-Harris Administration has made historic investments to improve Massachusetts's infrastructure and build a clean energy economy, including:

- ★ **Logan International Airport Terminal Upgrades**: Logan International Airport in **East Boston** was awarded **\$84.5 million** to upgrade Terminal E, including expanding the baggage claim area, replacing the HVAC system, and rehabilitating the existing gates and jet bridges.
- ★ **Sagamore Bridge Replacement**: The Department of Transportation awarded nearly **\$1.4 billion** through the Bridge Investment Program and Mega grant program to replace the Sagamore Bridge, one of two bridges that provide mainland access to **Cape Cod**. The current bridge is nearly 90 years old and is structurally deficient. The new bridge will increase seismic resilience and ensure continued access to Cape Cod.
- ★ **Electric Bus Acquisition**: The Massachusetts Bay Transportation Authority was awarded **\$116 million** to purchase new electric buses to replace older diesel buses and launch a workforce development program to support training and safety efforts.
- ★ **Roxbury Transportation Corridor**: The Department of Transportation awarded **\$20 million** to the **City of Boston** for improvements to the Roxbury Transportation Corridor. This project will reconstruct and upgrade three corridors in the Roxbury neighborhood, as well as construct a dedicated bus corridors. The project will transform a community that has been underserved and overburdened by creating a safer street while promoting active transportation choices. It will also use sensors and data technologies to improve the three corridors and provide affordable transportation options.

- ★ **Connecting the Commonwealth Inland Route Project:** The Department of Transportation awarded **\$108 million** for rail infrastructure and safety improvements through the Consolidated Rail Infrastructure and Safety Improvements program. The project involves project development, final design, and construction activities for various track, signal, grade crossing and bridge improvements on the Inland Route corridor, which is CSX Transportation-owned and State-owned infrastructure. The project will increase capacity to safely accommodate the addition of two round trip Amtrak Lake Shore Limited intercity passenger trains per day at higher speeds, while maintaining current freight operations.

- ★ **Accelerating Building Thermal Electrification While Managing System Impacts:** Generac Grid Services is receiving up to nearly **\$50 million** from the Department of Energy to provide approximately 2,000 income-eligible participants a combination of home battery systems, thermostats paired with heat pumps, and hot water heater load control switches. The goal of this initiative is to demonstrate that efficient building electrification can be achieved while minimizing system overloads, reliability issues, and the need for infrastructure upgrades. This project will reduce demand during peak hours in the summer and winter.

- ★ **First Commercial Electrochemical Cement Manufacturing Project:** The project in **Holyoke**, led by Sublime Systems, will receive up to **\$86.9 million** to build a new, ultra-low carbon cement manufacturing facility that replaces carbon-intensive limestone with abundant calcium silicate-based feedstocks.

- ★ **Renewable-Energy Powered Microgrid:** The Massachusetts Department of Energy Resources and the **Town of Barnstable** will receive **\$42 million** in funding to install a renewable energy-powered microgrid at the Barnstable High School and Intermediate School Complex.
