

Columbia River Salmon Budget Crosscut Addendum

The Office of Management and Budget (OMB) has prepared an addendum to the [Columbia River Salmon Budget Crosscut](#) released on July 25, 2024 to present Infrastructure Investment and Jobs Act (Public Law 117-58) and Inflation Reduction Act (Public Law 117-169) funding.

Methodology and Data Transparency

This addendum to the Columbia River Salmon Budget Crosscut includes agency-reported data for programs and projects targeted toward restoration of salmon, steelhead, and other native fish populations in the Columbia River Basin.

For national or larger programs that cover a broader geographic region, including programs that provide allocations based on a competitive or merit-based system, some of the amounts represent a best estimate of the funding amount supporting the restoration efforts in the Columbia River Basin based on available information.

Resources Reported

This addendum presents FY 2022, FY 2023, and FY 2024 enacted funding from the Infrastructure Investment and Jobs Act (also known as the Bipartisan Infrastructure Law) and the Inflation Reduction Act.

Reporting Agencies

- Department of Agriculture;
- Department of Commerce;
- Department of Transportation;
- Department of the Interior;
- Corps of Engineers—Civil Works; and
- U.S. Environmental Protection Agency.

1/ For national or larger programs that cover a broader geographic region, including programs that provide allocations based on a competitive or merit-based system, some of the amounts represent a best estimate of the funding amount supporting the restoration efforts in the Columbia River Basin based on available information.

2/ In FY 2024, NOAA made \$240 million available for Tribal hatchery modernization. NOAA has not made award decisions and does not yet know how much funding Columbia River hatcheries will receive.
